

Joint Purchasing NEWS

CMS Illinois Department of
Central Management Services

May 2008

Volume 2, Issue 3

LAST YEAR WAS THE WORST WINTER SEASON IN RECENT HISTORY. Rock Salt application was the highest it's ever been. CMS worked closely with the vendors to ensure the product was delivered as effectively as possible to ensure no one ran out. All units that ordered Rock Salt through the state contract received the amount requested in their Requisitions. As a result, the word has spread and now more than 50 additional local governments will purchase Rock Salt from the State contract for the first time.

NOTE: There are over 100 local governments that participated in the Rock Salt buy last year that have not returned Joint Purchasing Requisitions for the coming winter season. If you plan to purchase Rock Salt through the Joint Purchasing contract, please return your Rock Salt Requisition ASAP.

Upcoming Contracts

Mowers, T4860 – Many of you are anxiously waiting for the Joint Purchasing contract for Mowers to be awarded. The delay is a result of a holdup in completing the contract with one of the vendors. However, the decision has been made to post the remaining contracts and that will happen very soon. The good news is - there will be several dozen models of mowers available and you should be able to find the mower you need.

Green cleaning supplies are available in the Joint Purchasing contracts for **Janitorial Cleaning Solutions, T3980**, which will expire in June. In the future, there will be a contract containing only green cleaning supplies and it will be much easier for you find the green cleaning supplies you need to protect your students, workforce and the environment.

Heavy Equipment – This will be a new contract for Joint Purchasing. There will be a vendor meeting this month and expect a contract this summer.

**Liquid Salt & Liquid Calcium Chloride
Requisitions are due by May 31, 2008**
